

Financial reporting webinar 2020: IFRS 17 and beyond

24 November 2020, 14:00 – 15:30
Webinar

Following on from our financial reporting events over the last 3 years as IFRS 17 *Insurance Contracts* has been developed, the ABI's 2020 webinar on 24 November looks to the future. This event will give you the opportunity to hear from Pauline as the UK Endorsement Board takes on the challenges not just of preparing the ground for UK insurers to apply IFRS 17 but influencing the IASB's development of other significant changes in IFRS reporting – on which Nick Anderson, IASB Board member, will present. And key users will give their views on how these developments will influence their assessments of insurers' financial reports.
